Summary

Frontend Lead with 3 years of experience architecting scalable React.js and Next.js applications, component libraries, and Micro-Frontend systems for enterprise and AI-powered SaaS platforms. Specializing in TypeScript, React Query, and performance optimization.

Experience

Frontend Lead, Neminath Technologies (May 2025 - Present)

- Led frontend development for 6+ enterprise applications including Task Management, HRM, CRM, Recruitment, and Audit platforms, serving 1,000+ active users.
- Architected Micro-Frontend modules and created 50+ reusable UI components, form builders, dashboards, and workflow modules.
- Established CI-driven testing pipelines using React Testing Library and Playwright, reducing regression issues.
- Mentored 4 interns and junior developers through code reviews and technical guidance.

Full-Stack Developer, ZenDevX Solutions Pvt. Ltd. (Sep 2023 - Apr 2025)

- Delivered ERP, CRM, and Inventory Management systems for 7+ clients using React, Next.js, Node.js, MongoDB, and MySQL.
- Designed responsive dashboards and workflow automation tools, cutting reporting time and manual errors by 30-50%.
- Enhanced a no-code platform generating applications across 2 stacks with 3 database backends.

Projects

- Operato - AI-Powered Restaurant SaaS: multi-tenant platform with tenant-isolated PostgreSQL data modeling via Prisma, natural-language-to-SQL query assistant (Gemini).
- My Piano Diary - Piano Lesson Manager: full-stack scheduling and billing platform with tRPC and Prisma.
- Skillza - Learning Management System: instructor course creation, student purchasing, AWS-powered media storage.
- The Royal Stay - Hotel Management System: booking management, cabin administration, customer reservations.

Education

Silver Oak University, Bachelor of Engineering in Information Technology (2021-2025), CGPA: 9.0/10

Technical Skills

React.js, Next.js, TypeScript, JavaScript, React Query, Redux Toolkit, Tailwind CSS, Playwright, React Testing Library, Node.js, Express.js, tRPC, Prisma, MongoDB, PostgreSQL, MySQL
